

Australian Clay Minerals Society Inc.

EXTENDED ABSTRACTS

Editors: G.J. Churchman, J.L. Keeling and P.G. Self

21st ACMS Conference

QUT Gardens Point, Brisbane, Queensland

7 August 2010

Supported by

Australian Clay Minerals Society Inc.

AIMS OF THE AUSTRALIAN CLAY MINERALS SOCIETY

The ACMS is a scientific society whose aim is to further the study of clay minerals and allied substances:-

- by facilitating the exchange of information among members of the Society, and, in general, all those interested in clay minerals;
- by providing facilities for reading and discussion of papers on the methods and results of research on clay minerals and allied topics;
- by stimulating interest in clay mineralogy; and,
- by encouraging the practical applications of clay mineral research.

How to join the ACMS

All those having an interest in the aims of the Society are eligible to become members.

All who attend a Biennial Conference of the Society become members for the next four years.

Alternatively, you can join the Society by contacting the Secretary, explaining your interest, and paying \$1 per year.

ACMS Committee

John Keeling (President)
Will Gates (Vice President)
Rob Fitzpatrick (Secretary)
Mark Raven (Treasurer)
Jock Churchman
Ray Frost
Peter Self
